Alma College Photographs Digitization Project Completed

Funding from Library and Archives Canada and the Canadian Council of Archives, under the Archival Community Digitization Program, allowed the Archives to digitize the entire 4,500-item photographs series in the Alma College fonds. The Alma College Alumnae Association also made a generous financial donation to this project. This project, *Toujours en Avant: A Pictorial History of Alma College*, was completed in March 2008 by digitization assistant Jan Row. The project website can be viewed by clicking on the “Explore Alma Photographs” link on the Archives’ website at www.elgincounty.ca.

Alma College students and staff prepare for an outing, 1927.
