OGS Volunteers Indexing St. Thomas Times-Journal Marriage Announcements

Volunteers from the Elgin County chapter of the Ontario Genealogical Society are hard at work on the Archives' behalf indexing a large volume of marriage notices and photographs originally published in the *St. Thomas Times-Journal* ca. 1960-1990. The volunteers are populating excel spreadsheets with data that will ultimately be uploaded to the Archives' online public access Inmagic database along with digitized versions of the original photographs to form a comprehensive record of the County's marital history over a thirty-year period. Plans are already in place to pursue projects encompassing similar announcements series - births, deaths, retirements, anniversaries etc.
