Tweedsmuir Histories Digitization Project Completed

Funding from Library and Archives Canada and the Canadian Council of Archives, under the Archival Community Digitization Program enabled the Archives to digitize and publish online the complete contents of the more than fifty volumes of Elgin County Women's Institute Tweedsmuir Histories in its collection. The project was completed and launched in April 2007 by digitization assistant Jan Row. The project website can be viewed by clicking on the "Explore Tweedsmuir Histories" link on the Archives' website at www.elgincounty.ca.
