

Note the hair style of the young man.

1973.

For a number of years, beards similar to the above have been worn by a number of our young men.

Mini Skirts

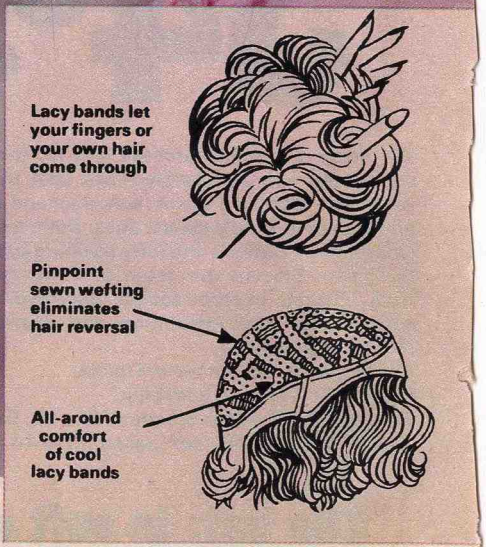

1973 and previous

SPECIAL! THE NEW COOL NO-CAP FASHION WIG... 1988

Hot, uncomfortable wigs are a thing of the past! Now you can keep a cool head with a no-cap Tempo wig by First Lady. It's light, cool and comfortable—especially good for warm weather. No-cap design has light lacy bands that give air-conditioned comfort. Tempo has a short feathery cut and up-to-the-minute styling — you can even pull your own hair through the bands for a frosted look. Modacrylic fibre makes it easy to care for — it looks, feels and moves like the real thing. Wig may be hand washed in cool water, dries in a few hours. Because the body is permanent it bounces back after every wash. No wig block is necessary — it can be folded up and carried in your purse. Wig stretches to fit all head sizes.

1973

Snowmobiles are still pretty much the same.
The beautiful difference ... Skiroule.

Skiroule brings a dramatic new look to
snowmobiling. By applying aerodynamic
principles to its design, Skiroule combines
form with function. Delivers all the
performance its racy lines promise. Beautifully.

*Snowmobiles are a familiar sight in Colton
during the winter season.*
