Their Secret

Some women give a favorite recipe
 With mathematical precision, lest
 The bread or cake or pickles copied be
 Inferior to their established best.
 Then there are other women, like Grandmother,
 Who say, "I seldom use a book, but go
 About it my way," and they tell another
 They use a "bit" of this, a "pinch or so"
 Of that, "enough" of something else to season.
 Shocking, and yet, perhaps their confidence,
 Perhaps their gay abandon is the reason
 They set a table of such excellence.
