Some women give a favorite recipe
With mathematical precision, lest
The bread or cake or pickles copied be
Inferior to their established best.
Then there are other women, like Grandmother,
Who say, "I seldom use a book, but go
About it my way," and they tell another,
They use a "bit" of this, a "Pinch" or so
Of that; "enough" of something else to season
Snocking, and yet, perhaps their confidence,
Perhaps their gay abandon is the reason
They set a table of such excellence.
