Elderly Farmer Dies Under Heavy Tractor

An act of kindness cost an elderly Port Talbot farmer his life Thursday afternoon.

Herbert Whalls, 72, died pinned under a huge 9,000 pound tractor while on his way to pull a stalled car out of a mud trap.

Mr. Whalls had driven from his farm near Port Talbot to the farm

of his brother, Arthur, to help pull out the jammed car of Ken-neth Murphy, staff forester of the Department of Lands and Forests, Aylmer.

As Mr. Whalls drove the tractor over a flimsy, home-made bridge, two poles supporting the plank top broke and tipped the tractor into a shallow creek bed. Mr. Whalls was pinned under the tractor and died almost immediately.

It took two other tractors to

pull the big farm vehicle away so Mr. Whalls body could be freed. Arthur Whalls, who had called

in his brother, rode with Herbert on the tractor down a gulley at the rear of Arthur's farm.

Both men climbed down from the tractor to inspect the bridge. After deciding the bridge would hold, Herbert climbed aboard and started across.

As soon as the front wheels touched the bridge, it broke. The creek bed, six feet deep, contained only a little water.
