

KING GEORGE VI LIFT BRIDGE REHABILITATION PROJECT NOTICE OF PUBLIC INFORMATION CENTRE (PIC)

The King George VI Lift Bridge crossing Kettle Creek was constructed in 1938 and since then has undergone several repairs with the last repair in 2007. Earlier this year a Detailed Condition Assessment and Load Limit Evaluation was completed to assess the structural, mechanical, and electrical condition of the bridge. As a result of the existing condition of the bridge, the County of Elgin retained the services of GM BluePlan Engineering Limited to complete the design and administration for the Rehabilitation of the King George VI Lift Bridge, and plans to undertake extensive rehabilitation starting in 2020 to improve the reliability of the bridge structure and extend its service life.

A Public Information Centre (PIC) is planned to provide the public and all interested stakeholders an opportunity to review the proposed rehabilitation scope of work, ask questions, and provide their input!

Public Information Centre (PIC):

Date: Wednesday, November 20, 2019

Time: 6:00 – 8:00 PM

Location: Port Stanley Arena & Community Complex, 332 Carlow Rd, Port Stanley, ON N5L 1B6

Following the Public Information Centre (PIC), comments provided will be considered and incorporated into the planning and final design of this project, and will be received until Friday, November 29, 2019.

For detailed project specific information, please visit the County's website
