“Support Elgin” Website Here to Support Local Business

COUNTY OF ELGIN – The County of Elgin is pleased to make available [Support Elgin](#), a website developed to assist Elgin County businesses during these challenging times brought on by the COVID-19 pandemic. “We know that these are difficult times for our local businesses and services so we have created this resource to support and promote our business community in their time of need, while also letting area residents know about all the great products and services available locally” stated Elgin County Warden Dave Mennill.

The site lists businesses and services that are currently operating either with delivery, takeout options, curbside pickup, limited in-store service or online shopping. Listings are categorized according to each of Elgin County’s seven local municipal partners. Updates to the site are made daily. Any business or service that wishes to provide new or updated information can do so directly on the site or by contacting info@elgin.ca.

“Elgin’s business community is resilient and is adapting to new ways of providing service” stated Warden Mennill. “It is important to shop locally not only now, but into the future as well. Almost everything you need can be conveniently found right here in Elgin County!”
