Subject: Imperial Road Port Bruce Bridge Replacement Project - Progress Update

Good Afternoon Port Bruce Merchants and Residents,

As all have likely noticed by now, the bridge's presence has been complimented with new planting materials, installed earlier this week on Tuesday by Peters Landscaping. Next, Hayman Construction's subcontractors, Russell Construction and Pro Electric will next return to site tomorrow and continue electrical cabinet concrete base installation work associated with future installation of the bridge deck mounted street lights. Due to today's unfavourable weather and the aforementioned works, completion of roadside hydroseeding of previously disturbed areas has been rescheduled to be completed sometime next week (weather permitting). Ongoing, minimal disruption to traffic throughout the day can be expected. Your continues patience is greatly appreciated!

Stay Safe!

Brian Lima, P.Eng.
