POLICY

The Administrator and Manager of Resident Care (MRC) will maintain a written staffing plan for the nursing and personal support services of the Home.

PROCEDURE

1. The staffing plan will:

- Provide for a staffing mix that is consistent with residents' assessed care and safety needs and that meets the requirements as specified by FLTCA, 2021
- Set out the organization and scheduling of staff shifts
- Promote continuity of care by minimizing the number of different staff members who provide nursing and personal support services to each resident
- Include a back-up plan for nursing and personal care staffing that addresses situations when staff, including the staff who must provide the nursing coverage required cannot come to work
- A Staffing Contingency plan during an outbreak must be in place and include the following (also see Administration Policy 1.36 Operational Scheduling Cohorting Plan):
 - In order to meet staffing requirements of a Home during an outbreak/pandemic, staffing needs may not be met with internal County of Elgin employees alone, and additional resources may be required. The following strategies may be considered/undertaken to ensure adequate staffing levels as defined by the Home Operations Management team are achieved:
 1. Recruitment campaigns facilitated by Human Resources
 2. Utilization of redeployed County of Elgin staff as available/appropriate
 3. Engagement of contracted agency staff with signed contracts and all necessary documentation
 4. Increase agency contracts as applicable
